A Game. By Talon Baker

Included in the Box:

50 Unique cards

& 100 Pennies
(not a bribe)!

Each ~~player~~ **Rat** will get 20 pennies and 1 ℗ to start the game
(You might want a simple calculator/pen & paper to keep track of points)

How to Play
2 - 4 players

1. Each rat will put two pennies in the pot and be dealt TWO cards face down

Then you wager (starting from the dealer and going clockwise):
Bet - Increase the current bet

Check - You don't need to bet now, but if anyone else wants to bet, you must **call** their bet to stay in the game

Call - Matching the current highest bet

Raise - You may add more money to the current bet

Fold - You remove yourself from the game

2. Each player left in will be dealt ONE card (this time face up)

Another wager

3. Each player left in will be dealt ONE last card face up

One last wager

4. All remaining players will show their hands and calculate a winner!

In the case of a tie the pot will be split down the middle

Keep playing until one player has **all the pennies!**

How to calculate a winner

The winner is the one who has the most ℗!

Points are added in a specific order:

First, add the points from the cards

+

Then, add the points from the **Set Combinations**
(pair, two pair, four of a kind, etc.)

×

Next, add any multipliers you might have!

Finally, calculate the **conditional** effects that may be on some of your cards. These will always be calculated last

If you have more than one that works, choose one!

Coffee Cup — Conditional: If you have FOUR OF A KIND, +25 points to your total

or

Dried Leaf — Conditional: If you have NEGATIVE POINTS, +50 points to your total

Set combinations

Matching any **sets** in the following combinations will result in points

What's a set?

Any of these!

Pair	= 4 ℗	
Two Pair	= 10 ℗	
Three of a Kind	= 15 ℗	
Four of a Kind	= 20 ℗	
Four Different	= 20 ℗	

Art

Conditional: If you have TWO PAIR, +10 points to your total

Rats

in a Sewer

Dried Leaf

Conditional: If you have NEGATIVE POINTS, +50 points to your total

Good Idea

Conditional: If you have FOUR DIFFERENT SETS, -5 points from ALL PLAYERS (this happens before calculating conditional points)

Lawsuit

It's not Mickey...

Unlabeled Booze
